**FIRST OFFICE ACTION --- AN EX PARTE QUAYLE ACTION**

1. All claims are allowable except the amendment of claim 4 is required. The dependency of claim 4 should be changed to depend upon claim 3 because claim 4 recites "the latch apparatus". The "latch apparatus" is defined in claim 3, therefore, claim 4 should be amended to depend upon claim 3.
2. The following is a statement of reasons for the indication of allowable subject matter: the claims are allowable because no prior art teaches *"a controller for PWM controlling the motor, increasing a duty ratio of the PWM control according to a given increasing rate just after starting the motor, reducing the duty ratio to a given value by detecting a start of the open close body by means of detector, and keeping the given value of the duty ratio for a given period."* Also see applicant's drawings Figs. 4 and 6 (steps S3, S4, S6).
3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
4. Any inquiry concerning this communication should be directed to Bentsu Ro at telephone number (571) 272-2072.
